WATER TUBE BOILERS FOR NAVAL USE VINDICATED.

SPECIAL BY CABLE TO THE ST. LOUIS REPUBLIC AND THE NEW YORK HERALD.
London, Aug. 6.—(Copyright, 1904.)—Water tube boilers for naval purposes have been vindicated by the final report of the Committee on Naval Boilers. Even the credit of the much condemned Belleville has been to some extent restored. In forwarding the report of the committee,

the committee said: "The committee is of opinion that the Belleville boiler is a very good boiler for naval use, and that it is not inferior to the water tube boiler in any respect."

The committee also said: "The Belleville boiler is a very good boiler for naval use, and that it is not inferior to the water tube boiler in any respect."

The committee also said: "The Belleville boiler is a very good boiler for naval use, and that it is not inferior to the water tube boiler in any respect."

"APOSTLE OF CORN" VISITING THE FAIR

Charles J. Murphy Thinks Russia Will Surprise All With Trump Card in September.

Colonel Charles J. Murphy, former Commissioner for the Department of Agriculture in Europe, and at present holding a similar office for the State of Iowa, is of the opinion that Russia has a trump card, which it will not play until September, and that the many reverses encountered by the army and navy in the present conflict had been expected by that Government.

Mr. Murphy, who is visiting the fair, was intimately acquainted with Minister Von Plehve, and also counts many of the other high Russian officials among his personal friends.

"The dead minister," he said, "was a friend of the United States, and proved this on more than one occasion. Just why the sentiment of the American people is so strongly anti-Russian is more than I can understand, especially when one considers the many reverses that the Government has rendered us. The present indications are that Russia will be defeated in the war with Germany. I, however, know something of the inner workings of that Government, and do not believe it will be so easily defeated. I wish the American people would know more about the Russians. They are among the best people I have met in Europe, and the most intensely and sincerely religious. The Russian officials are charged with hoodlums. I am sorry to admit that this is true. But let us remove the mote from our own eyes before we attempt to condemn others."

Colonel Murphy was in Russia at the time of the famine in 1891-92, and officially called the attention of the American Government to the fact, with the result that relief committees were organized in all of the States. Colonel Murphy is a volunteer veteran of the Mexican and Civil wars, and within the last fifteen years has spent most of his time in Europe, and has been the American Indian corn as a fool.

LOWERS TYPEWRITING RECORD.

New Yorker Writes 28,944 Words in 24 Hours.

Solph P. Cole of Catskill, N. Y., performed a notable typewriting feat in the Palace of Liberal Arts yesterday morning, breaking the world's record for the greatest number of words in seven hours' continuous writing. A Pittsburgh visible writing machine, with continuous paper, was used in the test, which was started at 10 o'clock yesterday morning. At the end of five hours, the previous record of 22,999 words was broken, and Mr. Cole decreased his speed, finishing the seven hours with a total of 28,944 words, or an average of 6 1/2 words per minute. The previous record was made by Mattie F. Petty of the United States Patent Office, on July 25, 1903. Mr. Cole is 35 years old, and received his training in a law office. In speed writing he uses only the first finger on each hand. In yesterday's test he wrote over and over a fifty-four word sentence from memory.

"BUSTER BROWN" HEADS PARADE.

His Dog "Tige" Got Tired and Dropped Out of Line.

"Buster Brown" headed the parade of the Brown Shoe Company at the World's Fair yesterday. About seventy children dressed in costumes of the famous character, and down the Pike and through several of the exhibit buildings, "Tige," the prettiest of dogs, was in the parade. The dog, which was in the parade, was tired and dropped out of line. He became tired and quit. Major Ray, who was in the parade, was tired and quit. A phanton drawn by twenty-five of the youngsters and containing Miss Virginia Wierhouse, daughter of Sidney Webb was one of the features.

GLADIOLUS SHOW OPENS.

Over 10,000 Varieties Exhibited in the Garden of Horticulture.

The Gladiolus show, which opened yesterday in the west wing of the Palace of Horticulture, exhibits over 10,000 varieties of this popular flower in every conceivable shade and color. The cuttings are displayed in vases set on basins of mirrors with which the large pavilion, where the show is located, is furnished. The Gladiolus Show will continue until the latter part of October, and fresh cuttings of the flower will be placed in the pavilion every day until frost stops the flowering.

LADIES WILL ENTERTAIN.

Plans are arranged for Electrical Contractors' Convention.

The wives and daughters of the St. Louis members of the association of Electrical Contractors, which will hold a convention at the Exposition September 14 to 17, met yesterday afternoon in the Missouri building to arrange plans for the entertainment of the ladies who will accompany the delegates at that time. It was decided that on the afternoon of September 15 the visitors would be taken on an automobile tour of the city, and on September 16 a steamboat excursion will probably be the feature of entertainment. Definite plans of entertainment for the remaining two days will be made later.

THE DIESEL OIL ENGINES

Which Furnish the Electric Current for the German Tyrolean Alps.

Represent a wonderful advance in the science and practice of internal combustion engines. They are run by common fuel oil or crude oil and with such economy that, even with our cheap coal, they save from 25 to 50 per cent over the steam engines in general use in our city. See them in operation! The engine room is only one hundred feet from the main entrance in the World's Fair grounds.

Thirty Go to Penitentiary.

Thirty prisoners were taken from the Four Courts to the Jefferson City Penitentiary yesterday morning to serve terms ranging from two to twenty-nine years. The one who was sentenced to the longest term is John Meinhardt, who was convicted of murdering Hazel Smith, last March.

TELEPHONE HELPS ANXIOUS COUPLE

Dispensation Obtained for Marriage of Cornelius Collins and Francis J. McGroarty at Alton.

Permission by long-distance telephone was obtained yesterday afternoon for the marriage at Alton of Cornelius J. Collins, 29 years old, and Miss Frances J. McGroarty, aged 23, both of St. Louis.

The couple obtained the marriage license from a Deputy County Clerk, and went to St. Peter's and Paul's Cathedral in State street at Alton, where they requested the Reverend Father E. L. Spalding to marry them.

As they had brought no dispensation, the priest declined to perform the ceremony. They departed, but returned in an hour and renewed their request.

The Reverend Father Spalding was informed that Mr. Collins and Miss McGroarty were of the parish of the Church of the Visitation in St. Louis. The Reverend Father Dempsey is pastor of the church. After earnest entreaties on the part of Mr. Collins and Miss McGroarty, the Reverend Father Spalding communicated on the long-distance telephone with the Reverend Father Dempsey, and the special dispensation required in such cases was granted. The couple returned to St. Louis immediately after the ceremony was performed.

Famous Mexican National Band

On Monday, August 8, World's Fair grounds will give free concert for the children in Machinery Garden, Cascade Gardens and Plaza St. Louis.

VISITORS AT ST. LOUIS HOTELS

Peters Shoe Co.'s Showing the Hit of Manufacturers' Day.

The hit of Manufacturers' Day at the World's Fair was the "turn out" of Peters Shoe Company. Headed by a Highland Fling band, the parade was seen everywhere until the closing hour at night. Happy Hooligan, a man dressed in a Highland Fling costume, with a sword and a bag of money, was the center of attraction. He was followed by a band of Highland Flingers, and a ringmaster with twenty or more clowns, creating excitement and heralding the parade of Peters shoes, aided by barbers with megaphones stationed all over the grounds. Through the people filled the aisles surrounding the big manufacturing exhibit of this company in the Manufacturers building and thousands deposited their estimates on the thousand-dollar slippers, which are to be given away to the first few months. The first person estimating nearest to the total paid admissions to the fair.

Chaffing Dish at "Frisco" Building.

A chaffing dish of Japanese coin silver, representing the continuous work for nine months of Masuyuki, one of Japan's most noted silversmiths, is on exhibition at the San Francisco building, on the Model Street. This chaffing dish, which is half inches high and twelve inches in diameter, and made after the designs of G. T. Marsh & Co., Oriental goods importers of San Francisco, is considered the finest example of hand-hammered silver work in America. The cover of the dish is a continuous series of dragons riding on the surface of waves. The chaffing dish is valued at \$25.

22-35 Chautauque Lake and return, via Erie Railroad.

E. S. Perry Assistant Auditor.

The announcement of the appointment of Edward S. Perry to be Assistant Auditor of the World's Fair was made yesterday. Mr. Perry has been for some time past a clerk in the auditing department of the Exposition. The increasing volume of work in the auditing department, which came with the opening and progress of the Exposition season made imperative an additional member of Auditor Gabriel's immediate staff, and as Mr. Perry was familiar with the work, the appointment went to him.

BROOKS IS AGAIN ARRESTED.

Commission Man Held by Federal Authorities in California.

Los Angeles, Cal., Aug. 6.—Charles W. Brooks, one of the proprietors of Van Nuy's Broadway Hotel, was arrested at noon to-day on a Federal warrant from St. Louis. The warrant was issued upon an indictment that charges him with fraudulent use of the mails. This is the second time Brooks has been arrested within the last few months. The first arrest was made several weeks ago, and was on a similar charge.

Brooks then gave bond, pending trial, and after trial his attorneys carried the matter to the Supreme Court, where the matter now rests pending decision.

"This matter is a simple one," said Brooks this afternoon. "I was at the head of the Brooks Commission Company in St. Louis. One of my partners, who recently died, made a large sum of money during a period of a few months, trouble ensued and blame was laid at my door. I have done nothing wrong."

CONVENTION FOR ST. LOUIS.

Total Abstinence Union to Convene August 10.

Hartford, Conn., Aug. 6.—The Reverend Walter J. Shanley of this city, president of the Catholic Total Abstinence Union of America, announced to-day that he had called the thirty-fourth annual convention of the organization, to be held in St. Louis August 10, 11 and 12.

There are 50,000 members enrolled, and it is expected that 800 delegates will attend the convention.

TERMINAL TOWER OPERATORS QUIT

Twenty-Five Employed at Different Stations Obey Perham's Order and Leave Posts of Duty.

About twenty-five telegraph operators employed by the St. Louis Terminal Association obeyed an order from H. B. Perham, president of the Order of Railroad Telegraphers, to go out on a strike yesterday afternoon.

The order was issued on account of the failure of A. Robertson of the Terminal company to accede to an immediate raise of salaries which he had promised to take under consideration.

The operators, who were employed at Washington avenue, Fourteenth street, Gratiot street, Bridge street and the west end of the tunnel, left their instruments and walked out of the offices. The men employed in the main tower remained on duty.

The strike caused some confusion for an hour or more, as in many of the small towers the telegraph operator works the switch levers as well.

Several trains were delayed from thirty to fifty minutes in reaching the Union Station.

Yesterday's action was taken by the operators after a delegation headed by A. Robertson, assistant manager of the Terminal lines, the day before, demanding an immediate increase in wages. Mr. Robertson told the men that he would consider the matter and see what could be done.

The strike originated out of the strike on the M. & K. & T. The men demand, in immediate reinstatement only. They were told that their places had been filled, but that their individual applications for re-employment would be considered. Another demand for increased wages followed.

Mr. Robertson said last night that the trains were arriving and departing on their usual time, the places of the strikers being filled with other employees in the various towers.

REPUBLICAN SPECIAL.

Los Angeles, Cal., Aug. 6.—Charles W. Brooks, one of the proprietors of Van Nuy's Broadway Hotel, was arrested at noon to-day on a Federal warrant from St. Louis. The warrant was issued upon an indictment that charges him with fraudulent use of the mails. This is the second time Brooks has been arrested within the last few months. The first arrest was made several weeks ago, and was on a similar charge.

Brooks then gave bond, pending trial, and after trial his attorneys carried the matter to the Supreme Court, where the matter now rests pending decision.

"This matter is a simple one," said Brooks this afternoon. "I was at the head of the Brooks Commission Company in St. Louis. One of my partners, who recently died, made a large sum of money during
